DETAILED ACTION***Election/Restrictions***

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are at least as follows:

Species I:	Figure 3A;
Species II:	Figure 3B;
Species III:	Figure 12A;
Species IV:	Figure 12B;
Species V:	Figure 13A;
Species VI:	Figure 13B;
Species VII:	Figure 15A;
Species VIII:	Figure 15B;
Species IX:	Figure 16A;
Species X:	Figure 16B;
Species XI:	Figure 17A;
Species XII:	Figure 17B;
Species XIII:	Figure 18A;
Species XIV:	Figure 18B;
Species XV:	Figure 19;
Species XVI:	Figure 29;
Species XVII:	Figure 33;
Species XVIII:	Figure 36;
Species XIX:	Figure 37;
Species XX:	Figure 38;
Species XXI:	Figure 39;
Species XXII:	Figure 40;
Species XXIII:	Figure 41;
Species XXIV:	Figure 42A;
Species XXV:	Figure 42B;
Species XXVI:	Figure 43;
Species XXVII:	Figure 44;
Species XXVIII:	Figure 46A;
Species XXIX:	Figure 47A;
Species XXX:	Figure 48;

Art Unit: 2627

Species XXXI: Figure 51A & 51B;

Species XXXII: Figure 53A; and

Species XXXIII: Figure 53B.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a). Currently, no claim is considered generic.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: the species each include elements which are disclosed as being used mutually exclusive of each other and hence patentable in their own right.

A telephone call was not made to the applicant's representative to request an oral election to the above restriction requirement due to the need for the examiner to promptly act on the application.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul Huber whose telephone number is 571-272-7588.
